

As a member of the Trafinz executive I have worked with Glenda Harding and her team for a number of years, both as a representative for the Safe and Sustainable Transport Association and more recently as the delegated local representative to assisting facilitating the 2017 Trafinz Conference in my local city of Nelson.

I have been attending Trafinz conferences using Harding Consultants since 1997 and I am always "wowed" by the highly polished conference output they produce. I know this is the outcome of months of planning work where Harding's high professional standards, attention to detail, and element of fun, results in a great event. I have been privy to many years of delegate survey results and without exception the praise for the logistics of the conference organisation stands out as crowd pleasing. In my mind this is as important as the conference content itself.

Glenda and her team are a joy to work with – they seem unflappable and get the job done. I have no hesitation in recommending Harding consultants to my professional colleagues.
